

BLACK POWDER RULE CHANGES

These changes may be pasted into the current book.

3.3.2. The backing-board for the target must be cut out to the eight ring if plywood or other solid material is used.

4.1.10. Electronic sound reducing devices may be used. Radios, tape recorders, and communication systems are prohibited both during the match and during official practice. Mobile phones and other such devices (e.g. Smart watches) may be used as timers and must be inactive (i.e. flight mode or no SIM card, wi-fi and Bluetooth disabled) so that no disturbance can be caused to others.

7.1.3.1. All shooters are privileged to petition PA for permission to assume a special or a substitute position or to use modified equipment, or both. A Special Authorization Certificate & card will be issued where the petition is successful. This may be Temporary or Permanent and will be specified on the certificate/card.
